## T-70 Vertical HMWM CONCRETE CRACK SEALER

### Concrete Structure Crack Sealer

Transpo T-70 Crack Sealers are specially formulated High Molecular Weight Methacrylate (HMWM) resin systems that strengthen and extend the life of concrete.

Transpo® T-70 Vertical is a specially formulated, high molecular weight methacrylate (HMWM) resin systems are highly effective for sealing and filling cracks in concrete structures. T-70 Vertical has low viscosity and surface tension allowing it to stay suspended, penetrating cracks and fill porosity beneath the surface. It bonds to the inner walls of the cracks thereby restoring much of the original strength and reducing crack propagation.

T-70 Vertical is available in 1 and 5 gallon containers. The initiator and promoter are provided in separately labeled containers and in pre-measured quantities to make scale batches of T-70 Vertical.

Contact us for information on horizontal and injection applications.

**Transpo® T-70 Vertical is easy to handle and does not require any specialized equipment.**

SAFER TRANSPORTATION THROUGH INNOVATION

# Transpo® T-70 Vertical

## HMWM CRACK SEALER

### Features and Advantages

T-70 Vertical strengthens and extends life of concrete surfaces

- Substantial crack penetration
- Low odor
- Fills and bonds Cracks
- Low volatility
- Easy application

### Application Process

It is strongly recommended that all concrete surfaces that receive T-70 Vertical be thoroughly clean, dry and sound.

T-70 Vertical resin must be mixed with the appropriate amount of provided promoter and initiator just prior to application. It can be applied manually with rollers.

### Applications

The use of T-70 Vertical on concrete structures reduces the permeability of the structure thus protecting it from further deterioration. T-70 Vertical can be used for crack sealing and filling on numerous concrete structures:

- Abutments
- Wing Walls
- Footings
- Piers
- Parapets
- Overhead concrete structures

Transpo T-70 Vertical has shown to have penetrating capabilities of over 1 in.
